

## Report Description:

### Statewide Benchmark Top 25 DRGs

These tables meet the requirements established by [AB 1045 <http://www.oshpd.ca.gov/HID/hospital/chrgmster/index.htm>](http://www.oshpd.ca.gov/HID/hospital/chrgmster/index.htm) and were developed using the patient discharge data file aggregated at the hospital level. Using the statewide Top 25 Diagnosis Related Groups (DRGs) for all hospitals as benchmarks, the tables display the total number of discharges and the average charge per stay for the selected hospital, the average charge per stay statewide, and the percentage of difference between the statewide and selected hospital charges. Note that any particular hospital may not have discharges in all 25 of the Diagnosis Related Groups (e.g., specialty hospitals such as maternity hospitals will not have DRGs for cardiac surgery).
